

Food Preferences List

When filling out this list, be as specific as possible: include brands, restaurants, specific flavors, preparation details such as “crust off,” etc. For example:

- McDonald’s fries
- Regular Triscuit
- Grilled cheese sandwich with one American cheese slice, crust cut off

Consider using a pencil so you can come back and move food entries from one box to another. If you want to print out a copy, this form is also available under Conquer Picky Eating resources at: www.extremepickyeating.com/teenadultresources.

The categories and lists in the left “food categories” column are meant to jog your memory and provide new foods to consider. To add any food you don’t see on the list, use the blank spaces at the bottom or write them into a similar category. We know a few of you don’t “enjoy” any foods you eat. If there are foods you can tolerate, put those in the first group, “eat now and enjoy.” Do your best to make this table work for you.

The following is an example:
